

intentional THINKER™

An **Intentional Thinker** creates the life that they desire by choosing their thoughts with intent

Learn the difference between creating your life by default and creating your life with intention at our small group meeting

Learn about the exciting information that will be shared by founder and group leader, Catherine Foster, as she teaches the fundamentals for incorporating a realistic plan of action for intentional thinking.

“The **power of a thought** is enormous. It’s capable of changing the most desperate conditions into the most magnificent. Its ability to transform our lives is being proven every day through science. And yet, as powerful as a thought is - it is totally under your control. No one can think your thoughts or take ownership over what is your inherent right; to choose what you think. You have the power over the most powerful force in the Universe - which is your thoughts.”

– Catherine Foster

Your life is in your hands.
Treat it with
intention.

Motivational speaker Catherine Foster is the founder and publisher of *The Positive Times Newspaper*, the founder of *The Positive Thinkers Network*, and the owner of Blossom Marketing & Publishing. Her successful career as a marketing strategist and serial entrepreneur is a direct result of the teachings that she learned over 12 years ago and still practices today. She has inspired thousands of people through her talks and professional organizations. Today, she has formed small groups of those who want to be an intentional thinker which allows an opportunity for incorporating change into the lives of her followers.
